

Scalable content distribution system for Signage, Menus, Kiosks, Gaming, & Enterprise Apps.

# signchro

create. deploy. display.

## In-house Promotional TV Channels

- Fully compliant ODE of remembrance (Aus)
- Free placement of all objects & "zones", with virtually no limits on the amount you use.
- Presentation mode for interactive slideshows
- Triggered audio & video announcements
- Static, Animated & Video slides
- Video & Radio streaming
- Full scheduling

## Multi-site, Multi-account Gaming

- Across all Raffles, Bingos, Membership draws, and more to come.
- Animations, Countdown timers, Bingo number hold
- Connect with all popular membership databases
- Player status & draw confirmation.

## Dynamic, Real-time Menus & Directional Signs

- Change daily specials, prices, events & times
- Built in number formatting, symbols
- Comprehensive styling for rows, columns

## Cloud Management Console

We have combined both management and content creation into one seamless interface - giving you the freedom to create the eye-catching displays you have always dreamed of.

- Shared multi-player channels
- Large selection of fonts
- Drag & Drop designer
- Edit from anywhere
- No Ongoing Fees

## Media Player

Compact, powerful yet efficient players. Designed to engage your customers while keeping your running costs low.

- Two independent HD HDMI outputs
- Automatic "set and forget"
- WiFi, Ethernet
- Portrait & Landscape
- Content stored locally
- Free software updates
- Robust 64bit server OS
- 3yr repair/replace warranty

- Optimised Low-bandwidth algorithms
- Exclusive "Virtual Videowall" technology

## Remote Control

Control with a smartphone, tablet, laptop or desktop. Your new remote is more intuitive, and much more advanced than ever.

- Authorise & go technology
- Control individual, or all players simultaneously

Full raffles, bingo & member draw control, with visual status of all participant sites

Multi-site control for shared channels

With many features not listed above & more being added regularly, signchro can be adapted to fit almost any situation.
